## Accessing the eCAMMS Product Evaluation Search

eCAMMS includes a public search website that provides information on approved materials and suppliers for construction.

The search is available at:

<https://www.ecamms.pa.gov/Public/Pages/NewProductEvaluation/ProductEvaluationSearch.aspx>

---

**IMPORTANT:** The public **Product Evaluation Search** is not available within your standard eCAMMS session. Log out of eCAMMS or open a new browser window to access the search. Your username and password are not required to use the operations in this section.

---

### Product Evaluations Search Page

The search page and additional information also are available from the Pennsylvania Department of Transportation's public website: [www.penndot.gov](http://www.penndot.gov).

From the main Department of Transportation site:

1. Click **Projects and Programs** in the main menu.
2. Click **Research and Testing**.
3. Click **New Products Evaluation and Research** link.
4. Click **Search NPETS**.
5. The **Product Evaluation Search** page appears.

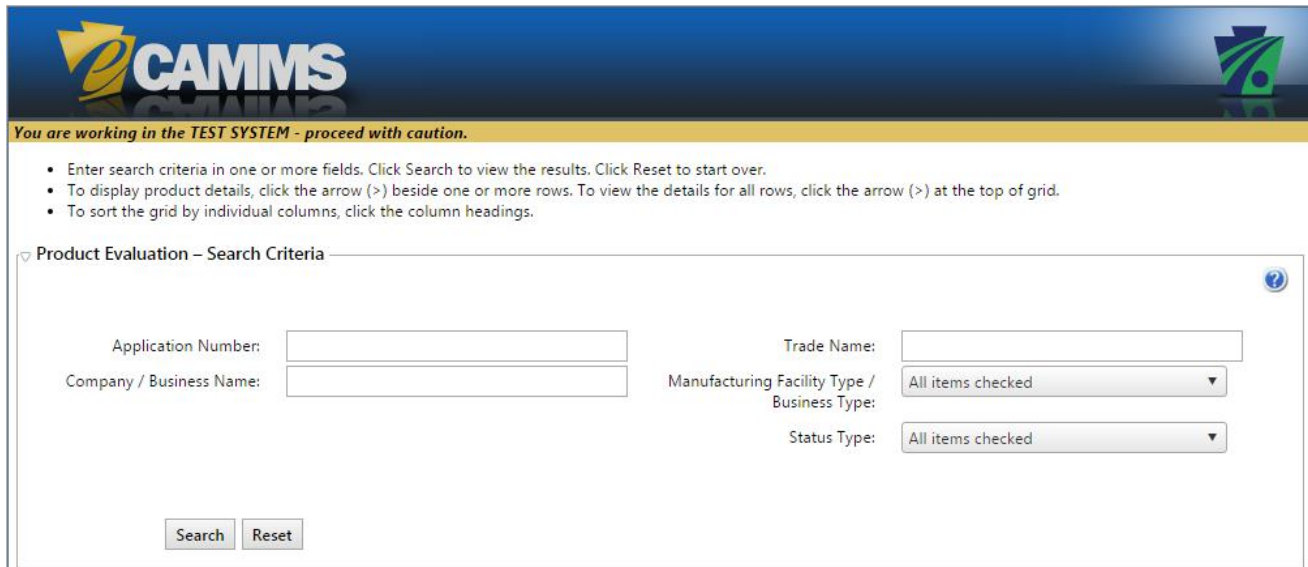

### Search and Display Features

The **Product Evaluation Search** includes a host of features designed to help PennDOT business partners locate product evaluations quickly:

- Search criteria fields designed for fast location of different information: text fields, type-ahead searches and dropdowns featuring multiple checkbox selection.
- Real-time search of the **eCAMMS** database.
- Complete results display in grid format, with sortable columns and additional detail displays.

Follow the instructions in this guide to locate and view product evaluation listings.

## Using the eCAMMS Product Evaluation Search

**eCAMMS**

*You are working in the TEST SYSTEM - proceed with caution.*

- Enter search criteria in one or more fields. Click Search to view the results. Click Reset to start over.
- To display product details, click the arrow (>) beside one or more rows. To view the details for all rows, click the arrow (>) at the top of grid.
- To sort the grid by individual columns, click the column headings.

Product Evaluation – Search Criteria

Application Number:

Trade Name:

Company / Business Name:

Manufacturing Facility Type / Business Type:

Status Type:

Use the screen to enter any combination of search criteria. Adding more search criteria will yield fewer and more relevant results. Click **Reset** at any time to clear the fields and enter new criteria.

## Defining the Product Evaluation Search

Follow the steps below to define your search. Use the mouse or **Tab** key to move among the fields.

1. **Application Number:** Use the field to restrict your search to one application. Leave the field blank to include all.

<b>Application Number</b>	Text	Type any combination of text in the field. Only application IDs containing the characters are included in the search results.
---------------------------	------	---

2. **Company/Business Name:** Use the field to restrict your search to suppliers. Leave the fields blank to include all.

<b>Company/Business Name</b>	Text or Numeral	Type any combination of text in the field. Only Business Names containing the characters are included in the search results.
------------------------------	-----------------	--

3. **Trade Name:** Use the field to restrict your search to one product. Leave the field blank to include all.

<b>Trade Name</b>	Text	Type any combination of text in the field. Only product trade names containing the characters are included in the search results.
-------------------	------	---

4. **Manufacturing Facility Type/Business Type:** Use the field to restrict your search to evaluations in one or more Facility Type.

<b>Manufacturing Facility Type/Business Type</b>	Drop-down	Click the dropdown. Click one of more facility type to restrict the search.
--	-----------	---

5. **Status Type:** Use the field to restrict your search to evaluations in one or more Statuses.

<b>Status Type</b>	Drop-down	Click the dropdown. Click one or more statuses to restrict the search.
--------------------	-----------	--

## Viewing New Product Evaluation Search Results

After selecting the criteria, click **Search** to display the **Search Results** in the lower section of the page.

*You are working in the TEST SYSTEM - proceed with caution.*

- Enter search criteria in one or more fields. Click Search to view the results. Click Reset to start over.
- To display product details, click the arrow (>) beside one or more rows. To view the details for all rows, click the arrow (>) at the top of grid.
- To sort the grid by individual columns, click the column headings.
